EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

The abstract has been amended to include proper language, according to the following final form:

Abstract

Implements including handles and working ends and product lines thereof are described. The implements are typically cleaning implements, such as mops and brooms, but may be garden implements such as hoes and rakes. Various methods for using such implements are described. In one aspect, the methods relate to shipping the implements, each of which includes the same overall length. In another aspect, the methods relate to displaying the implements, most often in a retail environment for presentation to consumers.

In the claims: Claims 1-17 and 46-67 have been cancelled.

This application is in condition for allowance except for the presence of claims 1-17 and 46-67, being directed to an invention non-elected without traverse. Accordingly, claims 1-17 and 46-67 have been cancelled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: regarding claim 18, the prior art of record fails to suggest, or make obvious, the claimed method of packing a shipping container with a plurality of implements requiring the combination of steps of: providing a plurality of implements, each implement comprising a handle attached to a working end, the handle including a first end and a second end, wherein the working end comprises a portion which is configured to perform a cleaning function and another portion attached to the first end of the handle, wherein each of the implements includes substantially a same first length comprising a distance from a bottom surface of the working end to the second end of the handle, and a handle-attachment member releasably securable to the second end of the handle; providing a shipping container; and disposing the plurality of implements, with the handle-attachment members detached from the second ends of the handles, within the shipping container so that at least one working end is aligned with at least one of another working end and a second end of another implement.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert J. Sandy whose telephone number is 571-272-7073. The examiner can normally be reached on M-F (7:30-4:00).
